Panel 3: *Independent Administrative Appeals and the Promotion of Integrity and Fairness in the Tax System.* An effective independent administrative appeals function promotes taxpayer trust while resolving disputes that are fair to the government and taxpayers, without the need for litigation. However, achieving true independence within tax agencies can be challenging, and statutes and procedures can create barriers, thereby limiting access to obtaining administrative appellate review. This panel will hear from tax administrators, ombuds, and researchers about the challenges in establishing new dispute resolution offices and protecting the independence of existing ones, particularly in Africa.

Moderator: Belema Obuoforibo, International Bureau of Fiscal Documentation, Amsterdam, The Netherlands

Panel 4: *The Role of Legal Privilege in the Protection of Taxpayer Rights.* For centuries the attorney-client relationship has been afforded great protection, either through statute, common law, or legal norms. In recent years, this protection has been eroded; while these erosions may occur in the context of difficult cases, erosions of legal privilege affect all taxpayers. This panel will explore recent developments in the area of legal privilege, and the import for taxpayers and tax professionals.

8:00 to 8:30 Coffee, Tea & Pastries

8:30 to 10:00 **Panel 5: *Strengthening the Rule of Law and the Protection of Taxpayer Rights in International Tax Disputes.*** Promoting a culture of strict adherence to the rule of law in administrative and judicial tax procedures of developing countries is good practice even when it may appear to counter the national interest to collect revenue. By securing an effective protection of taxpayers' rights, this culture indirectly encourages investment and prevents dramatic overturning of national decisions through international dispute settlement. The panel will discuss this approach in the light of practical experience around the world and put forward some proposals for establishing a global standard.

These initiatives not only raise privacy concerns but also concerns about the digital divide and whether whole populations of taxpayers will be able to engage with the tax agency or have to rely on intermediaries. This panel will discuss the benefits and challenges of tax digitalization, including taxpayer and human rights concerns.
